			ART UNIT	PAPER NUMBER
			1745	

DATE MAILED: 08/24/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)			
Advisory Action	09/897,613	HONBO ET AL.			
nancery neces	Examiner	Art Unit			
	John S. Maples	1745			
The MAILING DATE of this communication appears on the cover sheet with the correspondence address					
THE REPLY FILED 26 July 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.					
PERIOD FOR REPLY [check either a) or b)]					
a) \square The period for reply expires $\underline{4}$ months from the mailing date of the final rejection.					
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.					
2. The proposed amendment(s) will not be entered because:					
(a) ☐ they raise new issues that would require further consideration and/or search (see NOTE below);					
(b) they raise the issue of new matter (see Note below);					
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or					
(d) ☐ they present additional claims without canceling a corresponding number of finally rejected claims. NOTE:					
	tion(s):				
 3. Applicant's reply has overcome the following rejection(s): 4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). 					
5. ☐ The a) ☐ affidavit, b) ☐ exhibit, or c) ☐ request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.					
6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.					
7. For purposes of Appeal, the proposed amendment explanation of how the new or amended claims we	(s) a) will not be entered or bj ould be rejected is provided belo	□ will be entered and an own or appended.			
The status of the claim(s) is (or will be) as follows:					
Claim(s) allowed:					
Claim(s) objected to:					
Claim(s) rejected:					
Claim(s) withdrawn from consideration:					
8. The drawing correction filed on is a) approved or b) disapproved by the Examiner.					
9. Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s)					
10. Other:					
		John S. Maples Primary Examiner Art Unit: 1745			

Continuation of 5. does NOT place the application in condition for allowance because: of the reasons set forth in the Final Rejection and for the reasons that follow. Applicant argues extensively in the request for reconsideration regarding the negative electrode having a hexagonal crystal structure and that the applied reference to Takami et al. does not teach such. Applicant specifically argues that Takami et al. does not teach a negative electrode having a hexagonal crystal structure as a whole. It is noted that applicant has not specifically claimed this feature. As stated in the Final Rejection, Takami et al. show a negative electrode with a hexagonal crystal structure and so the claimed subject matter is met. Applicant also argues that Takami et al. does not teach a negative electrode including graphite powder with an amount of rhombohedral crystal structure therein in a range of 0-20% by weight. This argument was answered in the Final Rejection. It is also noted that applicant's range includes no rhombohedral crystal structure present in the electrode and that a reference is not required to disclose a value of the rhombohedral crystal structure being 20%. A further argument by applicant, and again, an argument that is discussed extensively, is that Takami et al. does not disclose the claimed regularity and orderliness of the hexagonal crystal structure of the negative electrode.. Again, this specific limitation does not find basis in the claimed subject matter as presently of record and is thus deemed moot.
